ABIES (Fir)

balsamea (Balsam Fir)

Its characteristic clean odor and stately appearance makes this a desirable variety even without its well known value as timber. Ideal evergreen for wet land. Popular variety for Christmas trees.

NIGRA—

THE AUSTRIAN PINE

This variety of the Black Pine is perhaps the best of the hardy, fast growing kinds and succeeds in a wide variety of soil—even along beaches subject to the salt spray of the sea. It is much used as a windbreak in estates near the ocean, but it is especially adapted for forestry planting.

YOUNG ARISTOCRATS—

Unusual and rare varieties . . . true to name because they are grafted . . . easy to grow because they have already passed a season out-of-doors. Some Winter protection is desirable, but no other special treatment. Balled and Burlapped for still easier handling. (Please remember that Dutch burlap is used and can be planted without removing.) This is an amazing opportunity to plant rare and delightful evergreens, trees and shrubs at little cost. (Weight 1 to 3 pounds each.) 50 mixed plants (your selection) at the 100 rate.
